

Core Dashboard Features

1. High-Intent Lead Alerts

Automatically notify SDRs when a lead:

- Engages 5+ times in 7 days
- Visits contact us page
- Downloads multiple assets
- Attends a webinar

Alert Example

 "Shivani, John Smith engaged with 6 marketing assets this week. Recommend follow-up within 24 hours."

2. Lead Engagement Timeline

Display every interaction in one place:

Date	Activity
Jun 1	Webinar Registration
Jun 2	Email Opened
Jun 3	Whitepaper Download
Jun 4	Pricing Page Visit

This gives Sales full context before outreach.

3. Churn / Lost Lead Prediction

Identify leads that may go cold.

Example:

"No engagement in 14 days. Recommend re-engagement campaign."

4. AI Lead Summary

One-click summary:

"This lead attended 2 webinars, opened 7 emails, visited the upright pages 4 times.
Strong buying intent."

5. Deal Momentum Tracker

Track movement across stages:

Marketing Lead → MQL → SQL → Opportunity → Proposal → Closed Won

Visual indicators:

-  Accelerating
 -  Stalled
 -  At Risk
-

6. Pipeline Visibility

Show:

- Total Leads
 - MQLs
 - SQLs
 - Opportunities
 - Closed Won
 - Conversion %
-

7. Team Performance

Track SDR metrics:

- Follow-up rate
 - Meetings booked
 - Response time
 - Conversion rate
-

8. Sales & Marketing Alignment Chart

Measure:

- Leads accepted by Sales
- Marketing-generated pipeline
- Marketing-generated revenue

Feature That Could Win the AI Code Fest

"AI Deal Copilot"

A chatbot built into TrackrAI:

User asks:

"Show me leads most likely to convert this week."

AI responds:

"12 leads meet the criteria. Top lead: Microsoft Energy Team, engagement score 95, attended webinar yesterday, estimated conversion probability 87%."

This feature combines AI, automation, marketing attribution, sales intelligence, and sustainability metrics into a single experience and would make for a compelling demo.

AI Code Fest Sustainability Features (EXTRA FEATURE)

AI Energy Dashboard

Track:

- AI requests processed
- Estimated energy consumption
- Estimated carbon footprint

Example:

- AI Queries: 4,200

- Energy Used: 0.42 Wh/query
- Carbon Footprint: 0.12 gCO₂e/query

SALES FUNNEL

Pipeline Visibility gives both Marketing and Sales a real-time view of where leads are in the sales funnel and how effectively they are progressing toward becoming customers.

Example Sales Funnel

None

Total Leads → MQLs → SQLs → Opportunities → Closed Won

1. Total Leads

The total number of leads generated by Marketing.

Example:

- Webinar Registrations: 200
- LinkedIn Leads: 100
- Website Forms: 50

Total Leads = 350

2. MQLs (Marketing Qualified Leads)

Leads that have shown enough engagement to be considered interested.

Examples:

- Attended a webinar
- Opened multiple emails
- Downloaded a whitepaper
- Visited the uplift page

Example:

Out of 350 leads, 120 meet the qualification criteria.

MQLs = 120

3. SQLs (Sales Qualified Leads)

MQLs that have been reviewed and accepted by Sales for follow-up.

Examples:

- Correct job title
- Relevant company
- Potential business need
- SDR contacted and qualified them

Example:

Out of 120 MQLs, Sales accepts 75.

SQLs = 75

4. Opportunities

Qualified prospects that have entered the active sales process.

Examples:

- Discovery call completed
- Product demo scheduled
- Proposal requested

Example:

Out of 75 SQLs, 30 become Opportunities.

Opportunities = 30

5. Closed Won

Deals that resulted in revenue.

Example:

Out of 30 Opportunities, 8 become customers.

Closed Won = 8

6. Conversion %

Shows how effectively leads move through the funnel.

Lead → Customer Conversion

Closed Won ÷ Total Leads × 100

Example:

$8 \div 350 \times 100 = 2.3\%$

Conversion Rate = 2.3%

How This Helps TrackrAI

Your dashboard could show:

Metric	Count
Total Leads	350
MQLs	120
SQLs	75
Opportunities	30
Closed Won	8
Conversion Rate	2.3%

Why It's Valuable

Today Marketing often asks:

- Did Sales follow up on the leads we generated?
- Which campaigns created opportunities?
- How many leads became customers?

Sales asks:

- Which leads are most engaged?
- Which leads should I prioritize?

Uplight IQ answers both questions by showing exactly where every lead is in the pipeline and how Marketing efforts contribute to revenue. This creates a single source of truth for both teams.

Status	Criteria
New Lead	Lead enters the system from a webinar, website form, event, or campaign. No SDR activity yet.
Engaged	Lead has interacted with marketing content (email opens, website visits, webinar attendance, downloads, etc.).
MLQ (Marketing Qualified Lead)	Lead reaches a predefined engagement score or meets qualification criteria.
Assigned	Lead has been assigned to an SDR for follow-up.
Contacted	SDR has made the first outreach attempt (email, call, LinkedIn message).
SQL (Sales Qualified Lead)	SDR confirms the lead is a good fit and interested in further discussions.
Opportunity	A meeting, demo, or proposal has been scheduled.
Nurturing	Lead is interested but not ready to buy. Continues receiving marketing communications.
Stalled / At Risk	No engagement or SDR activity for a defined period (e.g., 14+ days).
Closed Won	Lead converts into a customer.
Closed Lost	Lead is disqualified or chooses another solution.
